Cataloging Record Distribution Program Extended through FY13

Based on continued funding, the U.S. Government Printing Office (GPO) is extending the **Cataoging Record Distribution Program** (CRDP) through FY2013. The project is designed to distribute GPO-produced cataloging records to libraries, who then use these records to populate their online catalogs.

The project is being expanded to a maximum of 80 libraries.

Libraries seeking to participate for the first time must complete the **project profile form**. All applications must be submitted no later than October 29, 2012. Instructions for completing the project profile form are provided in the **Cataloging Record Distribution Project Profile Guide.**

Current participants can still re-enroll by completing the **Project Continuation Agreement form**. However, enrollment is now first come/first served.
