GPO is pleased to announce the renewal of its partnership with the Troy H. Middleton Library of Louisiana State University through 2010. Originally signed in 2001, this partnership provides for Federal depository library access to the List of Federal Agency Internet Sites Web site . Based on the U.S. Government Manual, the List directs users to the Web sites of active Federal agencies, and can be searched in several ways. Users can view a hierarchical or an alphabetical list of all agencies. The agencies are also listed by broad category, such as boards/commissions, legislative, and quasi-official. The entire list is searchable by agency keyword as well.

GPO thanks Louisiana State University for their efforts to maintain this valuable resource, and looks forward to continuing this successful partnership with the University.
