

Federal Depository Library/NTIS/GPO
Internet Account Validation Form

Submission of this form is required to create an account that will provide you access to the NTIS/GPO Pilot Project: “DARTS: Depository Access to Reports, Technical & Scientific”.

This account is good for a maximum of 30 workstations. The Web site is to be used for free public access under the Federal Depository Library Program (FDLP). Your password and account number are to be shared only with library staff who provide reference service. It is against NTIS/GPO policy to give out your account number or password to another organization or individual library users. Also, you may not allow organizations outside your library to connect to DARTS using your account and password via your library’s computer network; public access workstations in the Federal Depository Library are permissible. Additionally, the program allows only for the temporary posting of downloads of documents through the Federal Depository Library Program system. Reports are not intended to be downloaded for additional distribution outside of your library users and the FDLP community. Any violation of these terms will result in the termination of your account with NTIS/GPO.

I request a password to access these services.

Depository Number:

Depository Name:

Library Address:

Depository Coordinator’s Name:

Phone Number:
