

Packets to Library Coordinators

Thursday, 12 March 2009 -

Packets for depository library coordinators will be sent this week in depository shipment boxes. The packets have not been classed, so they will not be included on a shipping list with an item number and SuDocs number. Please do not process the packets in the same manner as the other materials arriving in the box. Instead, please deliver the packet to your library coordinator.

These packets contain a letter to the coordinator which describes and explains the packet, an informational handout about GPO promotional materials, and a new FDLP Eagle door decal.
