

The University of North Dakota, Chester Fritz Library partnership agreement with GPO for the support of the National Needs & Offers list will end in July 2005. In preparation for the ending of this partnership, GPO is working to develop a database that will provide a GPO administered National Needs & Offers service. In order to prevent any lapse in service, GPO is seeking a new partner to temporarily continue to provide this valuable service for the Depository Library community. GPO will need the interim partner to provide this service for a minimum of 6-9 months.
