

How do I bookmark pages?

Saturday, January 10, 2009 - Last Updated Saturday, January 10, 2009

One of the features opened to depository libraries is the ability to bookmark frequently-accessed or important pages within the FDLP Desktop. This bookmarking feature is customizable based on each library's use of the Desktop. Once logged in, libraries will see a "My Bookmarks" section on the righthand column.

My Bookmarks

How to Add Bookmarks

1. Navigate to a page that you want to bookmark.
2. Once on the page, click on the star icon in the "My Bookmarks" module.
3. A pop-up box will appear asking if you want to enter notes for the bookmark. This is optional. Notes appear when you mouse-over a bookmarked link.
4. Hit "Okay".

How to Delete Bookmarks

1. Click and drag a bookmark link in the "My Bookmarks" module to the trash can icon.
