PREFACE

Background

At its October 1994 meeting, the Depository Library Council to the Public Printer endorsed the self-study process and initial questionnaire proposed by the Library Programs Service (LPS). This set of written questions is designed to assist documents staff as they critically review their operations. It also gives them the opportunity to assess their compliance with Title 44, United State Code (U.S.C.), chapter 19, and GPO regulations in advance of a possible on-site audit. This self-study can be a strategic assessment document which will walk the documents staff through issues such as collection development policy, compliance with the Americans with Disabilities Act (ADA), public access computer work stations, etc., which need careful consideration.

Purpose

This self-study has been developed as a component of the GPO's inspection of each depository library's Federal documents operation "where need is indicated" under 44 U.S.C. Section 1909. Depositories will perform a mandatory self-evaluation that, in some cases, replaces an on-site inspection.

Citations to appropriate GPO-supplied publications which contain the rules and regulations for the Federal Depository Library Program appear at the end of the self-study document. The self-study format and questions apply to all types of depositories, with the following two exceptions:

- Weeding Federal agency and Federal court depository libraries weed through the Library of Congress' Exchange and Gift Division under 44 U.S.C. Section 1907 rather than through a Regional library. Highest appellate court libraries also have different weeding guidelines.
- Free access to the public to use depository documents in the library is required of all depositories except those depositories designated as the library of the highest appellate court in the state under 44 U.S.C. Section 1915.

Procedures

Each year, LPS will request self-studies from a group of libraries in chronological order from the date of last inspection. A copy of the self-study will be provided by the depository to LPS and to the appropriate Regional library. Federal agency and Federal court depositories will correspond directly with LPS. Inspectors will evaluate each self-study. A telephone interview with the documents librarian will take place to clarify any issues. All depositories will receive a Self-Study Evaluation report.

1

LPS will determine whether an on-site inspection is warranted based on the self-study, follow-up questions, consultation with the Regional library, and specific criteria including recent staff and facility changes, results of prior inspections, and, if applicable, any complaints from depository library users.

Some questions have yes-no answers, in others, choices are indicated or a narrative response is requested. Add sufficient narrative to all questions so an inspector reading the self-study will more fully understand the library's operation. Guidance for preparing the self-study can be found on the FDLP Administration home page at: <www.access.gpo.gov/su_docs/dpos/selfstudy/>.

In preparing the library's self-study, use the template provided on GPO's World Wide Web site at <www.access.gpo.gov/su_docs/dpos/selfstud.html>. Download the template to a word processing system, input responses below each question, print the completed self-study, and mail it to LPS.

OPTION: Any depository may conduct a self-study at any time. LPS will review the self-study and provide a report to the library explaining perceived strengths, weaknesses, corrective actions, and recommendations. Such a "desk audit" review and report is not a substitute for any future on-site inspection, but is an option open to all depositories, e.g., for a new documents librarian's orientation, planning purposes, etc.

Self-Study

The self-study must be completed by depository library staff and returned to LPS and the Regional library by the due date provided in the notification letter. As noted earlier, an evaluation of this self-study may result in an on-site inspection. Note: Where appropriate the library may append various attachments such as relevant handouts, organizational charts, portions of or complete documents department or library annual reports which pertain to depository operations, etc.

The library's completed self-study must be transmitted to GPO by mail.

1. Collection Development

In this section you will describe the policies and practices that your library uses to build a collection of U.S. Government publications in all media.

1.1 Indicate which statement most closely describes your depository selection.

	A comprehensive, retrospective research collection
	A blend of current and retrospective holdings
	A mostly current, 5-year collection (with a few retrospective holdings)
1.2	Which of the following "Basic Collection" titles does the library select through the depository
	program? Adjacent to each title, note format received and/or any commercial equivalents. Explain

(Note: This Basic Collection has been updated. See http://www.access.gpo.gov/su_docs/fdlp/coll-dev/basic-01.html for details.)

why any are not selected, and where the library can refer patrons for that title.

	FDLP Administration page
	FDLP Electronic Collection
	Documents Data Miner
1.5	What FDLP databases and/or publications do you find most useful (Administrative Notes, WEBTech Notes, etc be specific)?
1.6	List most frequently used CD-ROMs selected by your library:
	a. Which are networked?
	b. For which is there access beyond the library?
	c. If no CD-ROMs selected, why?
1.7	Does the library subscribe to any Government online services available through the FDLP? Yes No
	a. Which ones? (STAT-USA, Environmental Health Perspectives, O*NET, etc.)
1.8	Indicate which maps your library selects using the following list. Note geographic coverage (county, city, state, etc.) as necessary.
	USGS
	NIMA
	NOAA
	Forest Service
	CIA
	Others
1.9	Does the library have a written depository collection development policy or a government
	documents component of a general collection development policy?
	Yes No

- 1.11 When did the library last conduct a review of items selected? Describe the process. Do you use a zero-based item number selection review? (A *zero-based review* means "evaluating item numbers on a one-by-one basis [which] should result in adding or deleting items from the selection profile." p. 10, "Collection Development Guidelines")

1.12	Does the library	have suitable	index tools to	o effectively	access the	e resources in	n the	documents
	collection?	Yes	No					

- a. If no, what other search tool(s) would you like added to the library?
- 1.13 Below is a selected listing of government-issued and commercial indices and services. Not all of these tools are appropriate for all types of depositories. Check off the information products and services the library owns. If on-line access is restricted for some indices, note that fact. Add any relevant titles which the library owns or has access to on-line.

2. Bibliographic Control

In this section you will describe how the library processes depository materials and maintains a holdings record to the piece level.

2.1	Describe how the library records depository receipts to the required piece-level. Include all tangible information products.					
	 a. monographs 1) paper 2) microfiche 3) CDs, floppies 4) vertical file and ephemera 					
	 b. serials 1) paper 2) microfiche 3) direct mail items 4) CDs, floppies 5) vertical file and ephemera c. maps d) CIA 					
	 CIA USGS topographic other maps (folded map series, NIMA, etc.) 					
2.2	Is there a significant difference in recording various formats to the piece level? Yes No a. If yes, describe.					
2.3	Your shelf list for the depository collection is: card-based part of an integrated library system PC-based other (explain)					
2.4	Note any exception to the full check-in record, such as retrospective gaps or mate checked in to the piece level. Note the reasons why the library does not fully record keeping for any material done another way?	•				

2.5	Does the check-in record show library holdings, classification numbers, frequency, location of documents, retention, etc.? Yes No a. If no, what information is not on this record?				
2.6	Describe the techniques used to properly identify and date mark all depository materials as required (i.e., stamps, writing on the documents, etc.).				
	 a. microfiche envelopes b. direct mail items c. maps d. CD-ROM jewel cases e. floppy disks f. paper monographs and serials, bound and unbound 				
2.7	List any titles or media that are not marked or stamped.				
2.8	Place an example of depository ownership/date stamp in the box. Note the date's significance also, such as date of receipt, processing, shipping list, other.				
2.9	Are there processing backlogs? Yes No				
	 a. If so, are these items organized so they can be retrieved quickly for use? Yes No

	d. Have you used FDLP "Recommended Specifications for Public Access Work Station in Federal Depository Libraries?" Yes No	IS
	e. List other equipment that supports the depository collection, such as microfiche reade and reader/printers, photocopiers, fax.	rs
5.6	Does the library have a strategic plan for acquiring computer equipment? Yes No	
	a. If yes, explain.	
	b. If yes, will acquired equipment meet the latest recommended specifications for public access work stations? Yes No	
5.7	Are there stable funding sources for:	
	a. computer upgrades? Yes No	
	b. printers? Yes No	
5.8	What software is available on public access work stations?	
	browser (What brand?)	
	word processor	
	Adobe Acrobat reader	
	fire wall	
5.9	All institutions are required by law to work towards full ADA compliance. Is there handicapped access to all portions of depository collections that are in public areas, including:	1
	ramp(s) or flat entrances into the library?	
	elevators to all floors housing depository collections?	
	stack-aisle widths in public areas at least 36" wide?	
	computer workstations and carrels?	
	equipment with assistive technologies for the physically challenged? (describe).	
5.10	Is there sufficient work space for depository library staff in a non-public area? Yes No	
5.11	Is patron work space for using the depository collection usually available?	
	Yes No	

5.12	 a. Indicate any times when patron work space is not available near depository collections. Are depository operations situated in an environment that facilitates access to and usage of depository resources, in that it is well lighted, climate controlled, ventilated, neat, and clean? Yes No
5.13	List any new physical facilities affecting depository operations since the last on-site inspection, including those under construction, or planned for construction. For future projects, note estimated start and completion dates. Describe how these new facilities have affected or will affect depository operations.
