Library Planning & Development

Projects of Special Interest

- Legacy Systems Migration
 - DDIS, ACSIS, ADDS, Item Lister, and Amendment of Item Selections are being worked together within a single Requirements Document (RD) because the systems are so closely interrelated. The new system will be called “Library Information System Transformation (LIST)”.
 - All applications “What / Where / How” – enhanced data redundancy.
- FDsys Training Manual
 - Also develop a FDsys Collections Document
 - Leverage existing training and develop enhanced training aids

FEDERAL DEPOSITORY LIBRARIES

LPD Accomplishments

- Concept of Operations (ConOps) and Requirements Document (RD) completed for LIST systems migration
- ConOps drafted for Needs & Offers Tool, posted for community feedback.
- Enhanced WebTech Notes Launched on FDLP Desktop.
- Partnership Updates
 - New Partnership with Cornell University Law Library “one year pilot project to evaluate conversion of CFR into XML”.
 - Renewed Partnerships with Southern Methodist University & Library of Michigan.
 - Full implementation in January of the partnership with the Association of Schools of Public Health (ASPH) for electronic access to Public Health Reports

LPD Path Forward

- Collaboratively develop the RD for Needs & Offers Tool
- Technology mapping for LIST RD and N&O RD
- FDLP Community Site
 - For the FDLP Community site, WCM has been working closely with various library groups such as Council, Regional's (Ann Sanders), the Gov Doc Kids Group, and GODORT Ohio who have reached out to us to support migrating from their existing sites to the FDLP Community.
