

ACCESS IMF RESEARCH AT NO CHARGE!

IMF eLibrary

Global Economics
at Your Fingertips

eLibrary.IMF.org

It is just one
small way the
IMF is serving
all our
members.

KRISTALINA GEORGIEVA
MANAGING DIRECTOR, IMF

Note from IMF Publications

The International Monetary Fund has a long-standing commitment to produce valuable content about the global economy and to make that content widely available. Continuing that practice, we decided to make the full digital collection of the IMF eLibrary available at no charge starting January 1, 2020.

As Managing Director Kristalina Georgieva said in her opening remarks at the October 2019 Annual Meetings in Washington, DC, "It is just one small way the IMF is serving all our members."

About the IMF eLibrary

The IMF eLibrary is an easy-to-use portal to a comprehensive archive of IMF research and data. Today the eLibrary holds more than 21,000 publications, reports, and working papers—and the collection is constantly expanding.

Information is accessed in an integrated environment supported by user-friendly navigation, intuitive search, and free personalization features.

Users can read online, download, print, and share information. Citation and annotation tools are also available.

The easy search and browse options allow researchers to find major new releases, historical information, and recommended reading.

Users will also find links to related content from other international organizations.

Using one platform, researchers can gather information across similar organizations focusing on economic issues.

Although not required, we encourage users to set up a free personal account to take advantage of all the features eLibrary has to offer.

Why should you use IMF eLibrary?

- The extensive archive puts cutting-edge research material and analysis at your fingertips
- The collection adds value to your work by drawing on the IMF's reports and data
- The IMF is a respected authority on vital global economic information

Collections & Content

With publications dating back to 1946, eLibrary delivers information and analysis from the staff of the IMF, who provide a unique perspective on macroeconomics, global finance, trade, and development.

Books, monographs, and analytical papers offer an in-depth look at many issues at the heart of the IMF's mission. Recent publications cover topics such as inflation, sovereign debt, commodity pricing, gender equality, climate change, natural resource management, and monetary policy.

Regular periodicals and reports deliver views on where the global economy has been and may be heading.

Manuals and guides and statistical publications cover the policy practices of the international statistical community at large, as well as at the IMF and within member countries.

Following is a partial list of key IMF series that you will discover in the eLibrary:

- Country Reports
- Departmental Papers
- Glossaries
- Regional Economic Outlooks
- Selected Legal and Institutional Papers
- Spillover Notes
- Staff Discussion Notes
- Tax Law Technical Notes
- Technical Notes and Manuals
- Working Papers

AREAER Online & Macroprudential Database

Click on “MCM Data” from the homepage and you will access two unique IMF staff products: Annual Report on Exchange Arrangements and Exchange Restrictions (AREAER) and Macroprudential Policy Survey Gateway. These proprietary databases are the only comprehensive sources on these topics.

The AREAER tracks the exchange rate and trade regimes of all IMF members and three territories. The IMF has published the AREAER annually since 1950.

AREAER Online, is an invaluable resource for reviewing changes in policies over time. Among the policy information that can be found are:

- Changes in policy on foreign worker wages
- Controls on foreign exchange markets
- Documentation requirements for import transactions
- Overviews of import and export tax systems
- Provisions for commercial banks, credit institutions, and institutional investors
- Rules on ownership of international real estate

The Macroprudential Policy Survey is compiled exclusively from information provided by IMF member countries and territories. It collects information on the measures taken to limit systemic risk.

The survey fills an important data gap for researchers and policymakers. For example, it can be used to support research to assess the impact of measures on credit and asset prices. It also provides information about the design of policy measures around the globe.

Statistical Data

The IMF produces a range of time series data on IMF lending, exchange rates, and economic and financial indicators. The IMF data portal delivers countries' most authoritative economic reporting in a single resource with a browser-based interface.

Click on “IMF Data” from the eLibrary homepage to discover some exclusive features of the online data portal, such as:

- Data Release Calendar
- Applications for bulk download of data sets
- IMF Data Workbooks to view, analyze, save, and export data
- Predefined data tables by country
- DataMapper and other data visualization tools

(Please note that some tools and features require registration or sign-in.)

IMF Data includes many valuable data sets. Among the more popular are the following:

- Balance of Payments Statistics (BOPS)
- Currency Composition of Foreign Exchange Reserves (COFER)
- Direction of Trade Statistics (DOTS)
- Financial Access Survey (FAS)
- Financial Soundness Indicators (FSIs)
- Government Finance Statistics (GFS)
- International Financial Statistics (IFS)
- International Reserves and Foreign Currency Liquidity (IRFCL)
- Monetary and Financial Statistics (MFS)
- World Economic Outlook (WEO)

Getting Started

Browse eLibrary.IMF.org

Find new releases by clicking on the “Browse” button

Scroll over the top bar navigation to browse content by date, country, topic, series, or author.

View the full recommended reading list to find publications on major research topics.

Search

Simply type a word or phrase in the search box at the top of any page to get a list of publications.

View or Download

Click on any title to see available file formats for download or printing, or to read online.

Personalize

Save searches, bookmark favorites, and set alerts by creating a free personalized profile that works across all content areas of IMF eLibrary.

- Click on the *My eLibrary Login* button on the top right corner of any page
- Click “*Register User Name*” at the bottom of the page
- Fill in the form and create a password
- Click on “*Submit*”

To learn more about how to navigate eLibrary, download the Startup Guide located on the “*HELP*” page or watch one of our video tutorials.
