GPO Produces U.S. Code With New Digital Publishing Technology

Details
Last Updated: September 25 2019
Published: September 25 2019

The U.S. Government Publishing Office (GPO) has taken a major step forward in the modernization of its publishing systems by beginning to publish the 2018 main edition of the United States Code through XPub, the agency's new digital technology for XML-based publishing. With the implementation of XPub, GPO will be able to simultaneously publish all legislative documents in a variety of print and digital formats in a timelier manner. The 2018 main edition of the U.S. Code is the first, large-scale production job that GPO has published using the new composition system.

"XPub is reinventing GPO's production process," said GPO Acting Deputy Director John Crawford. "The new system will allow GPO to complete work for Congress and the American people with remarkable efficiency and accuracy. I congratulate everyone who is working to develop this system that will carry GPO into the future."

New in FY19

- Statute Compilations collection
- Budget of the U.S. Government (FY 2020)
- Economic Report of the President (2019)
- Constitution of the United States of America: Analysis and Interpretation (CONAN, 2018 Supplement)
- Updates to the Congressional Directory, 115th Congress
- House Rules and Manual, 116th Congress
- Report on the Investigation into Russian Interference in the 2016 Presidential Election (Mueller Report)

GPO DIGITIZES PUBLIC PAPERS OF THE PRESIDENTS

Hoover, Truman – George H.W. Bush Added to the Collection

The U.S. Government Publishing Office (GPO) and the National Archives' Office of the Federal Register (OFR) have digitized volumes of The Public Papers of the Presidents for Presidents Herbert Hoover (1929) through George H.W. Bush (1990), with the exception of the Franklin D. Roosevelt presidency. The papers of President Franklin Roosevelt were published privately before the commencement of the official Public Papers series. Each volume of The Public Papers of the Presidents is comprised of a forward by the President, public writings, addresses, remarks, and photographs. This digitization effort joined the already digital version of Public Papers for Presidents George H. W. Bush (1991–1992), William J. Clinton, George W. Bush, and Barack H. Obama.

"GPO is proud to have digitized these Public Papers of the Presidents," said GPO Acting Deputy Director John Crawford. "Each volume chronicles an important time in our Nation's history. The public will now be able to access these documents on smartphones, tablet, laptops, and personal computers. I congratulate the GPO and OFR employees who made this immense digitization effort come to fruition."

govinfo Enhancements

First, some reminders…

govinfo

| content management system	preservation repository	public website
manages digital content to ensure authenticity and integrity	follows preservation standards enabling access to digital content	combines extensive metadata, robust search, and modern design
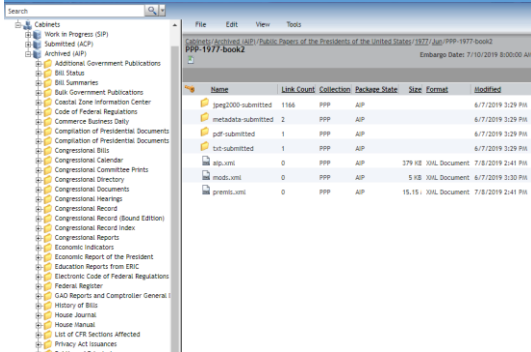

Development Release Cycle

- Four planned quarterly releases each fiscal year comprised of six two-week sprints followed by deployments to Production and COOP instances.

- Program roles including Program Manager, Release Manager, Risk Manager, Product Owners, and Testers are performed by GPO personnel in the office of Programs, Strategy, and Technology and rest of the **govinfo** team is made up of contracted development, support, and system administration staff.

- Onsite contracted development, support, and system administration teams use Agile Scrum, Kanban, and DevOpsSec methodologies on **govinfo**.
  - Search and Web Team
  - Repository and Processor Team
  - Infrastructure and System Administration Team

Agile Software Development
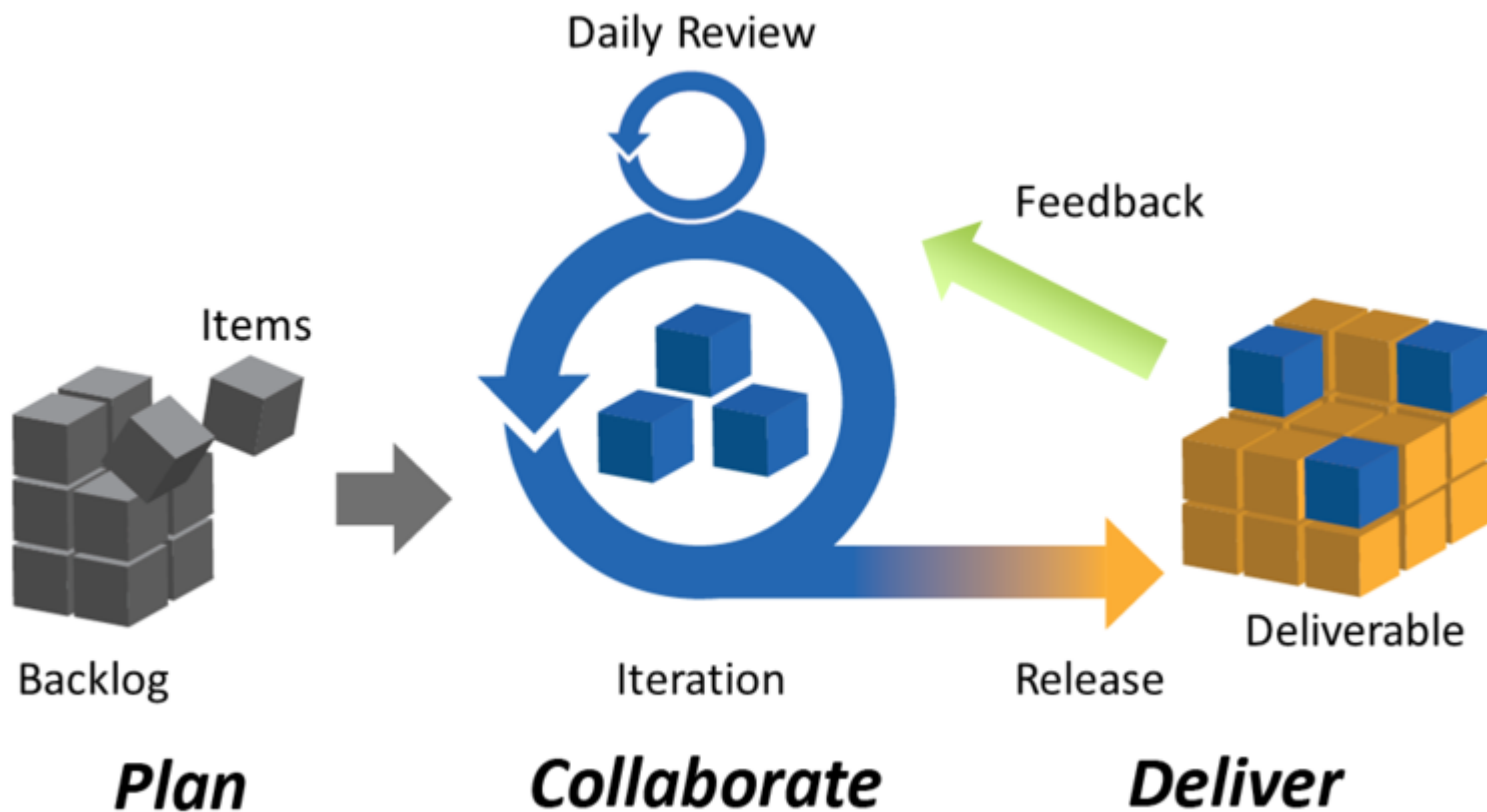

Release Features, FY19

- December 2018 –
    - FDsys retirement and redirects to **govinfo**
    - ISO 16363 Trustworthy Digital Repository Certification
    - USLM support for subset of Enrolled Bills, Public Laws, Statutes at Large
    - Statutes Compilations collection
    - Bill versions XML links to BILLSTATUS XML files
    - Search results teaser improvements
    - System updates, upgrades, and patches

- March 2019 –
    - Digitized Hearings content support
    - Linked History of Bills
    - API for eCFR and BILLSTATUS Bulk Data
    - USLM integration for Federal Register and Code of Federal Regulations
    - Homepage and UI design updates
    - CMS search and reports updates
    - System automation and upgrades

Release Features, FY19 (continued)

- June 2019 –
  - Search engine components major upgrade
  - Related Documents use case for linked parts of the same Congressional Hearing
  - System and component upgrades
  - GOVPUB (general Government Publications collection) enhancements
  - Validation for PDF formats

- September 2019 –
  - Accessibility and design improvements site-wide
  - New look and feel for date browse and search
  - Content Delivery updates
  - Metadata persistence for Congressional Directory collection
  - Metadata quality notifications
  - Parsing member social media information from Congressional Directory
  - Privacy Act Issuances update for increased frequency of content
  - Multiple Congressional Record and Calendars on same day
  - GOVPUB metadata and display enhancements

Metrics

- 2.6M titles available on GPO servers and from external links.

- 6.8M PDF files and 15M image files in the **govinfo** preservation repository.

- PDF, Text, XML, and JP2 are the predominate file formats.

- 4,500 average number of packages added to **govinfo** per week.

- 5 minute average processing time from ingest to availability on the public website.

- 25K average number of visits per day to the public website.

- 35M average monthly public website file retrievals in FY18.

- 424M public website file retrievals in FY18.

- 3.5B public website file retrievals since January 2009.

Live Demo

FY18 to FY21 Strategic Goals

- Improve the User Experience
- Deliver Results for Stakeholders
- Evaluate Innovative Technologies
- Refresh or Launch with Shared-Services or Open Source
- Interface with the Developer Community
- Refine Our Software Development Process
- Provide Operational Support
- Commit to Preservation and Assessment
- Monitor and Control Costs
- Recover Costs Through Services to Agencies
- Communicate What We Do
- Create a Sustainable Staffing Plan

FY20 Development Highlights

- Technology Refresh for Key System Components
- New and Updated Content Collections
- Enhanced Access and Increased Discoverability
- Content Curation and Related Documents
- Access to Documents in USLM
- Improved Submission and Ingest Tools
- Preservation Tools and Processes
- Functionality to Maintain ISO 16363 Certification
- Monitoring and Reporting Tools
- Automated Testing Tools
- Continuous Integration Tools for Agile Development
- Bug Fixes and Enhancements Based on Stakeholder Need
