

2023 Cataloging Record Distribution Program Participant Survey Preview

The U.S. Government Publishing Office plans to extend the [Cataloging Record Distribution Program](#) (CRDP) into FY2024, subsequent to funding approval. As a currently participating library in the CRDP, please complete this survey. Please note that submission of the survey is a CRDP participation requirement.

Before completing the survey:

Please [contact staff at GPO](#) if your library is experiencing any challenges with CRDP participation. We will consult with you to see how we may be of assistance.

Update CRDP points of contact at your library, when applicable.

In previous surveys, respondents were asked to provide the names of all CRDP contacts. The library's depository coordinator can now log into [askGPO](#), access library directory information in the "My FDL" section, view the contacts listed in the CRDP POC fields, and make any relevant changes. If you haven't yet viewed these fields, we encourage you to do so now and make any relevant updates.

CRDP contacts are library staff, typically depository or technical services staff, who are responsible for and knowledgeable about their library's participation in the CRDP. They receive monthly email notifications from MARCIVE about availability of new records sets and manage the records and activities related to the CRDP.

It is recommended that at least two individuals at a library serve as CRDP contacts so that a backup may retrieve records when needed. A library may have up to five CRDP contacts or email addresses in the askGPO My FDL section.
