Government Documents Display Clearinghouse

This clearinghouse was established to assist federal depository library staff in creating intriguing and eye-catching displays for promoting government documents collections. A number of displays submitted to us from around the U.S. have been incorporated into this site. This enables others to view displays on numerous topics, as well as the sources used to create them.

You can find an alphabetical [Subject List](#) of displays which were featured at various libraries. Simply click on the desired topic to view the photos and source list from the respective library.

The clearinghouse is seeking displays from other libraries. We welcome digital images and lists of sources. These items may be submitted to Cornerstone [Government Documents Displays](#) via e-mail.
