

MARCIVE, INC. GOVERNMENT DOCUMENT CATALOGING SERVICES

As a coordinator of a federal depository library collection, you want your users to find the wealth of information in government documents. What are your options? MARCIVE, INC. offers a host of services to make your collections more discoverable and accessible!

Ongoing GPO Database Service

This is our standard service that provides monthly files of MARC records that match your GPO item number profile and tailored to the needs of your ILS or library platform. You can also select by SuDoc Stem.

01

Documents Without Shelves

All records catalog by GPO that contain PURLS are output on a monthly basis, but you can tell us which agencies you don't want. A specialized profile for law libraries is also available

02

Shipping List Service

While you may not be getting as many tangible documents as in the past, we can help you process them with brief-level MARC records for not yet cataloged documents, as well as barcode labels and SuDoc number labels. Ask for samples!

03

Catalog Enhancement

MARCIVE offers ways to make other collections (including electronic resources) more findable include: data remediation, which can include authorities processing with free RDA conversion, MARC record enrichment (Tables of Contents, Summaries, Fiction/Biography data), Reading Notes Enrichment (Lexile, Accelerated Reader), Brief Record Upgrade, and Reclassification from Dewey to LC.
