

Chat Log

Finding Census Data for Libraries

Lorelei Sensabaugh 38:16

If you have any questions, please put them in the chat and send to "Everyone."

Jennifer Rundels 46:18

Regarding the ACS, how are participants selected? Do selected individuals have an opt-out option?

Lorelei Sensabaugh 46:38

The slides will be available with the recording. They are also available right now under Resources > Documents.

Jennifer Rundels 47:58

Lots of great data!

Lorena Jordan 51:16

Is this also being recorded?

Lorelei Sensabaugh 51:32

Yes, and the recording should be available tomorrow.

Becki White 01:19:18

Is there a way to save a mapped block group so you don't have to redraw it for every search you do?

Darle Balfourt 01:22:54

excellent! I like the refresh!

Celia Hagey 01:23:09

This was so helpful! I recently took on the business and economics liaison role at my library, and I imagine this data will be great for students researching consumer populations, etc

Trina Magi 01:23:46

It's clear I would use data.census.gov for data about population, housing, and the economic census. What about agriculture census and census of governments. Where should I go for that data.

Jennifer Rundels 01:24:07

Thanks!

Ryan Denniston 01:27:02

I think the Census of Agriculture is available at ERS over at USDA.

L. Baker 01:27:26

How would you track a data point over time, eg. rent over time?

Trina Magi 01:30:23

Thank you so much. This was very well done and extremely helpful.

Ryan Denniston 01:30:25

Many thanks!

Jacqui Celecia 01:30:36

Thank you

Lori Driver 01:30:37

Thank you!!

Becki White 01:30:41

Thank you!

Carla Graebner 01:30:44

Thank you

Kathy Wu 01:30:47

Thank you.

Leslie Carr 01:30:48

Thank you very informative!

Ethan Lindsay 01:30:53

Great workshop! Thanks!

L. Baker 01:31:04

Wonderful presentation!

Sam Patton 01:31:14

Thank you all for joining!

Carla Graebner 01:31:20

Can you provide a link to that webinar?
